151st IDA Annual Session, May 7-9, 2009

Beyond Tomorrow, Beyond Ourselves

More than 70 hours of continuing education courses offered!

Ready to get fit and create balance in your life? Attend Dr. **Uche Odiatu** and Ms. **Kary Odiatu's** courses on **Thursday, May 7**. Does your office need a

tune-up? Then attend **Cathy Jameson's** courses on **Friday, May 8**. Other speakers include Drs. **Terry Donovan, Mel Hawkins, Curtis Jansen**, and Ms. **Rebecca Wilder**.

Jo Frost from the hit TV series **Supernanny** will inspire and motivate dentists and staff during the opening-day keynote speech on **Thursday, May 7**. Following Jo's talk, get involved through a Q&A session. Ask questions and get free advice from an expert.

Reserve a single/double room for **only \$169 per night** at the Indianapolis Marriott Downtown before **Monday, April 13**. Use code **INDINDA** to take advantage of the group discount.

Look for a full list of speakers, workshops, and special events in the registration brochure. **Register on line now at** www.indental.org/register

Cover image includes a view of newly formed stars roughly 200,000 light-years from Earth, taken in July 2004 with the Hubble Space Telescope's Advanced Camera for Surveys. (Color altered) Credit: NASA, ESA, and the Hubble Heritage Team (STScI/AURA)–ESA/Hubble Collaboration

Make the dental universe a little smaller:

151st IDA Annual Session, May 7-9, 2009

Beyond Tomorrow, Beyond Ourselves

Join your dental professional community!

Celebrate dentistry's future by attending the annual **President's Welcome Reception** on **Thursday, May 7**. The party continues on **Friday, May 8**, at the **Dessert Night Cap**, where attendees can snack on the famous Marriott dessert bar, which includes after-dinner drinks, bananas foster, cherries jubilee, ice cream sundae, and much more.

You have the best staff in the galaxy. Let them know! Attend the annual **Staff Appreciation Luncheon** at the Indiana Roof Ballroom on **Friday, May 8**, and **Celebrate Your Team!** This event is co-sponsored by the **Delta Dental Foundation**.

Look for a full list of speakers, workshops, and special events in the registration brochure. Register on line now at <www.indental.org/register>

Cover image: Wispy tendrils of gas and dark trunks of dust that are light-years in height cut across a nearby star-forming region called NGC 3324. (Color altered) Credit: NASA, ESA, and The Hubble Heritage Team (STScI/AURA). Acknowledgment: N. Smith (University of California, Berkeley)

Dentistry does not need to be rocket science:

151st IDA Annual Session, May 7-9, 2009

Beyond Tomorrow, Beyond Ourselves

Join and learn about the issues facing dentistry!

Visit with more than 100 vendors in two days! The IDA Annual Session is a time to learn and celebrate. After so much celebrating, enjoy quality time with the people who helped build your practice: vendors. Unwind at the **Wine and Cheese reception** in the Exhibit Hall, **Thursday, May 7**, from 4:00-7:00 p.m. Enjoy the festive atmosphere, with show discounts and a scavenger hunt to receive free gifts.

Shape the political and dental landscape! Show your support for organized dentistry by attending the **IDPAC reception** on **Friday, May 8**. Our special guest speaker will be **John R. Gregg**, former Speaker of the Indiana House of Representatives. Don't forget to participate in the annual **IDPAC silent auction** on **Thursday, May 7**, and **Friday, May 8**.

Haven't registered for the meeting yet? Although online registration is now closed, **registrations will still be accepted on site at the Indianapolis Marriott Downtown, May 7-9.**

Cover image based on a May 9, 2003, photograph of the coil-shaped Helix Nebula. One of the largest and most detailed celestial images ever made, it shows a fine web of filamentary "bicycle-spoke" features embedded in a colorful ring of gas. At 650 light-years away, the Helix is one of the planetary nebulae nearest Earth. It appears round because this image shows one end of the nebula, which actually is a trillion-mile-long tunnel of glowing gases. (Color altered) Credit: NASA, NOAO, ESA, the Hubble Helix Nebula Team, M. Meixner (STScI), and T.A. Rector (NRAO).
